AC Auto body Miller Classic Playoff Format

The season is to be bowled in thirds. The roll off weeks for the thirds are week 11, 21 and 31. The first third will be 11 weeks, with a position round in week 6. The other two thirds will be ten weeks. Each third every team will bowl vs everyone. After the 31st week, the number one seed will draw a card for starting lane and bowl versus the 4th seed, while the 2nd and 3rd seed will bowl each other. The best out of 30 points in each match will determine who bowls who for the championship in week 33, the other two teams will bowl for 3rd and 4th place.

In an event that a team wins two thirds, they can finish no worse than 2nd place. In this scenario, the 2nd, 3rd and 4th seed, will bowl each other for the right to bowl the number 1 seed in week 33 for the championship. The 2nd, 3rd and 4th seed will bowl on their own pair versus each team, with all three leadoff bowlers bowling against each other, 2nd bowlers against each other and so on and so forth. In this scenario, the #1 seed will bowl with the 5th-9th place teams, but not be eligible for the sweeper money.

In an event that a team wins all three thirds, they are league champions and win the first place money. Seeds 2-4 will be determined by total points for the year. They will bowl each other in weeks 32 and 33 for 2nd-4th place money. The league champion will bowl weeks 32 and 33, they will not be eligible for sweeper money.

In all formats, seeds 5-9 will bowl seeded based on their total yearly accumulated points for weeks 32 and 33.
